In this book, Nobel Peace Prize winner and Maya activist Rigoberta Menchú Tum returns to the world of her childhood. The Honey Jar brings us the ancient stories her grandparents told her when she was a little girl, and we can imagine her listening to them by the fire at night. These Maya tales include creation myths, a classic story about the magic twins (which can also be found in the *Popol Vuh*), explanations of how and why certain natural phenomena came to exist, and animal tales. The underworld, the sky, the sun and moon, plants, people, animals, gods and demi-gods are all present in these stories, and through them we come to know more about the elements that shaped the Mayas' understanding of the world. Rich and vibrant illustrations by noted Mazatec-Mexican artist Domi perfectly complement these magical Maya tales. Key Text Features illustrations

Fact: Barings was an excellent company, with professional managers. Their careers were devastated by fraud. How many other managers are now in the same position without knowing it? Fact: The average company loses between 2 per cent and 5 per cent of its turnover as a result of dishonesty. When Mike Comer's book first appeared it quickly established itself worldwide as the standard work in its field. This third edition is a radical revision reflecting the world of EDI, electronic commerce, derivatives, computerization, empowerment, downsizing and other recent developments. Ironically, many of these have exposed companies to an alarming range of new risks. With the help of real-life case histories the author identifies the main types of fraud, the circumstances in which they occur and the telltale signs that give them away. He examines internal control systems and the attitudes and practices that allow fraud to flourish. He explains in detail how fraud can be prevented and detected, and shows why it is that many fashionable management techniques can also potentially pave the way to corporate disaster.

On a fateful day in February 2002, campaign manager Clara Rojas accompanied longtime friend and presidential hopeful Ingrid Betancourt into an area controlled by the powerful leftist guerrilla group, the Revolutionary Armed Forces of Colombia (FARC). Armed with machine guns and grenades, the FARC took them hostage and kept them in the jungle for the next six years. After more than two years of captivity deep in the Colombian jungle, surrounded by jaguars, snakes, and tarantulas, miles from any town or hospital, Clara Rojas prepared to give birth in a muddy tent surrounded by heavily armed guerrillas. Her captors promised that a doctor would be brought to the camp to help her. But when Rojas went into labor and began to suffer complications, the only person on hand was a guerrilla wielding a kitchen knife. The guerrillas drugged Rojas with anesthetic while one of them slit open her abdomen. Her son, Emmanuel, was born by amateur cesarean section in April 2004. His survival was miraculous, but her joy was soon cut short when the FARC took him from her when he was only eight months old. For the next three years, Clara was given no information about him, but her desire to one day see him again kept her alive. In early 2008, Clara was finally liberated and reunited with her son—to whom this book is dedicated.
